Draw & Color

Color the river. Imagine it's the river that Naaman bathed in to take his leprosy away.

Elisha Heals Naaman

Naaman was a great soldier who had leprosy. Someone told him that Elisha, a prophet of God, could cure him.

Naaman traveled far from his country of Syria to Elisha's house. When he got there, Elisha didn't even come out of the house. He just sent a message. "Wash in the Jordan River seven times."

Naaman was angry. "He should come out here and heal me!"

His servant touched his arm. "Why not just try it?"

Still grumpy, Naaman did as Elisha said. Sploosh! He bathed in the Jordan seven times. When he came up the last time, his skin was healed.

"Wow," Naaman said. "Elisha's God is a powerful God. I will worship Elisha's God from now on." God's love was for everyone, even a man from far-away Syria.

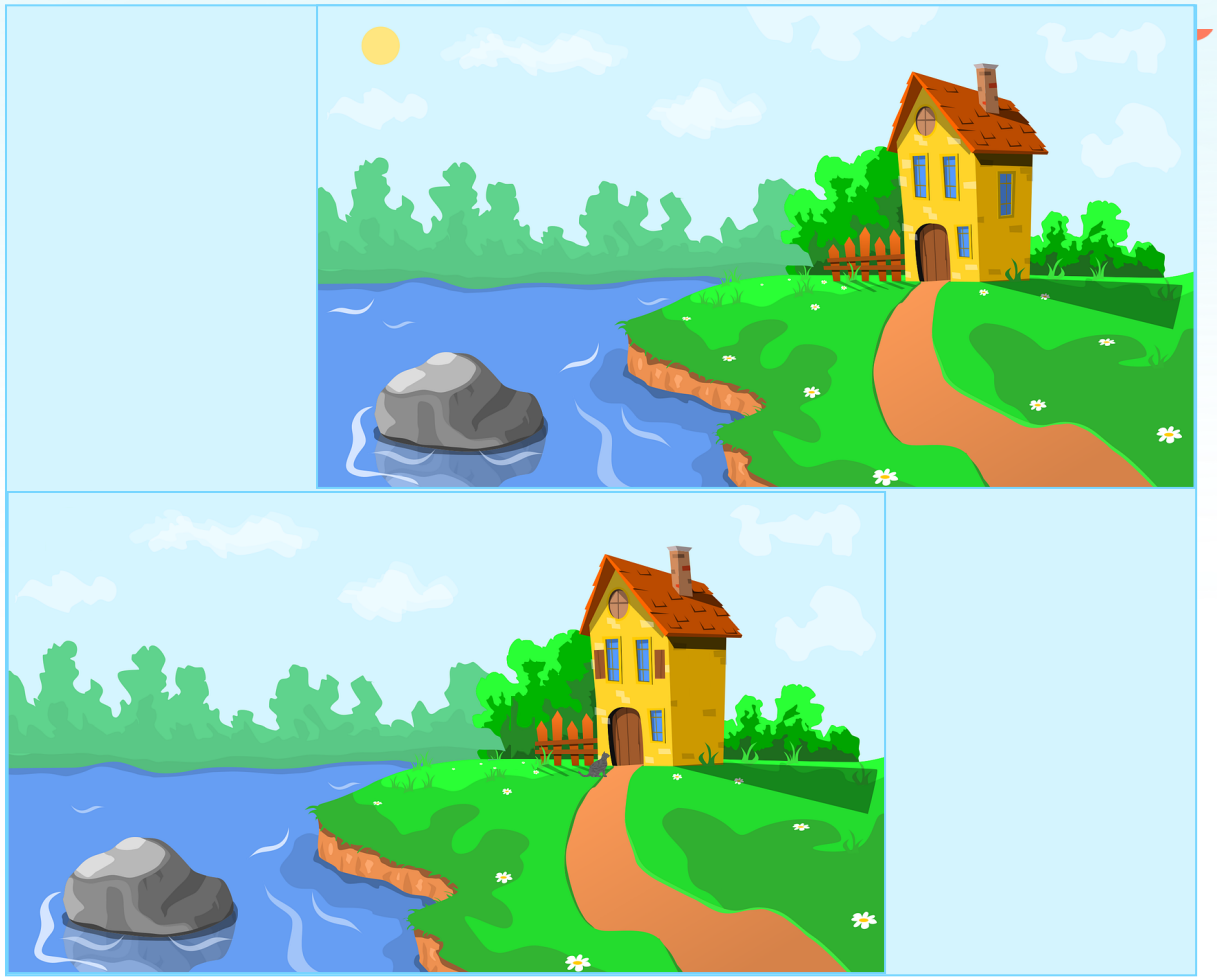

REMEMBER THIS

LEPROSY

Leprosy is a sickness in the skin. In Bible times, lots of different skin sicknesses were called leprosy.

SPOT THE DIFFERENCES

Can you find 10 differences between these two river pictures?

Did You Know?

Naaman took a bunch of dirt home to Syria from Israel so that he could worship God on God's own soil. How's that for dedication?
